SOFTWARE ENGINEERING STUDENT

ILYAS MUSTAPHA HATIME

AI, Cybersecurity & Quantum Computing Enthusiast

PROFESSIONAL PROFILE

Motivated Software Engineering student from Morocco, currently studying at China University of Petroleum. Passionate about Artificial Intelligence, Cybersecurity, Quantum Computing, Machine Learning, and advanced technologies. I am building strong technical and research skills through programming, web development, academic projects, cybersecurity practice, and exploration of AI and quantum computing. My long-term goal is to pursue advanced studies in Artificial Intelligence and Quantum Computing, with a focus on using technology to solve complex real-world problems.

EDUCATION

- Bachelor's Degree in Software Engineering**
China University of Petroleum - China | 2024 - Present
Currently a second-year Software Engineering student.
- Chinese Language Program**
China | 2023 - 2024
Studied Chinese language and achieved HSK 3 level.
- Baccalaureate**
Morocco | 2023
Completed with a good grade and prepared for international academic study.

TECHNICAL SKILLS

Programming Languages

- Python
- C
- C++
- JavaScript
- SQL

Web Development

- HTML
- CSS
- JavaScript

Tools

- Git
- GitHub

Technical Areas

- Artificial Intelligence
- Machine Learning
- Cybersecurity
- Quantum Studies

Other Skills

- UI Design
- Problem Solving
- Research
- Teamwork

TECHNOLOGY DIRECTION

Software Engineering + Research

CAREER FOCUS

Focused on advanced technology fields that connect intelligent systems, cybersecurity, quantum computing, and future innovation.

FOCUS AREAS

AI Systems

Secure Software

Quantum Algorithms

Data & ML

Modern Web

Innovation

PERSONAL BRAND

Analytical learner with strong curiosity for emerging technology.

International academic experience across Morocco and China.

Committed to practical projects, research growth, and long-term innovation.

ONLINE PRESENCE

GitHub Portfolio

LinkedIn Profile

PROJECTS + CAREER OBJECTIVE

PROJECT EXPERIENCE

Practical development, research exploration, and future-focused technology work

PROJECT EXPERIENCE

01

Python Pygame Full Game

Python + Pygame

Worked with a team to develop a complete game using Python and Pygame. Contributed to game logic, project structure, and gameplay features while improving programming and teamwork skills.

02

ISU Football Tournament Website

HTML + CSS + JavaScript + SQL

Developed a website to manage and present football tournament information in a clean, organized, and user-friendly way.

03

Developer CV Portfolio Website

HTML + CSS + JavaScript

Designed and developed a modern one-page developer portfolio website to showcase personal information, education, skills, projects, and future goals.

04

Future Vision Project: AI, Quantum Computing, and Advanced Technologies

Research + Technology Presentation

Created a professional technology-focused project about the future connection between Artificial Intelligence, Quantum Computing, and Nanotechnology.

CAREER OBJECTIVE

To continue developing my knowledge and practical experience in Software Engineering, Artificial Intelligence, Cybersecurity, and Quantum Computing, while preparing for advanced academic research and future innovation in technologies that can create a positive impact on the world.
